

Integrated company policy

Stargo Metal Design s.r.o.

Management of Stargo Metal Design s.r.o. is committed to the continuous improvement of our organizational capabilities, processes and systems, taking into account the organizational context, potential risks and opportunities, involving stakeholder requirements and meeting all legal requirements and standards of ISO 9001, ISO 14001.

The policy respects the following basic principles:

1. Satisfaction of stakeholders

Our goal is - To be a reliable and flexible partner of our customers and all stakeholders. At the forefront of our policy is adherence to quality and delivery deadlines. To do this, we need highly qualified and motivated employees, which we train and further develop their knowledge.

To meet the high requirements of our customers - we construct and actively participate in the development of the design of their products.

2. Environmental protection and strict health and safety

Adherence to all legal provisions and regulations in this sector is a matter of course, to which we place particularly strict emphasis. This applies in particular to the provisions relating to the health and safety of our employees.

In addition, we also strive to reduce energy consumption and treat all resources with care in order to reduce our environmental impact.

3. External providers of products and services

Selected suppliers and subcontractors are automatically involved in our quality assurance system.

The quality of the services and products they offer must unconditionally meet our strictest requirements, in conjunction with respect for the given environmental and labor law standards.

4. Internal vs. external communication

Conducting an open communication policy of regular interviews and evaluating feedback is an important part of our company's philosophy. A clear communication, across the entire production process, whether internal or external, is a prerequisite for good cooperation.

DI, Mag. Goran Starcevic
Managing Director
